Work Experience

2019 – 2022

Common Extract Sdn. Bhd.

Unity Game Developer

- Designed and developed levels for **Ejen Ali: Emergency**, improving gameplay experience.
- Built core gameplay systems, UI, and features for multiple Android projects using Unity3D and C#.
- Developed gameplay and features for **Allianz Virtual Adventure** using Phaser 3 (HTML5/JavaScript).
- Implemented core features for **Defianz NFT**, a Web3-based top-down game using the Unity TopDown Engine.
- Integrated client-side APIs and collaborated with designers and backend teams to ensure stable, optimized releases.

2023 – 2025

The Gang Asia Sdn. Bhd.

Roblox Game Developer

- Implemented enemy behaviors and UI for **Titan Heroes**.
- Developed core gameplay features for **Dollhouse RNG**, **6 GUNS**, and **Gummy Bear Simulator**.
- Created limited-time event updates for Gummy Bear Simulator to enhance player engagement.
- Handled data communication between client and server and supported multiplayer gameplay features.
- Collaborated with designers and artists to deliver polished, optimized gameplay across all projects.
